

SuperDocACO App

The #1 preferred PBACO network communication tool

The SuperDocACO app is a powerful tool for real-time hospital notifications, secure messaging, networking and more. Available to all PBACO physicians and office staff.

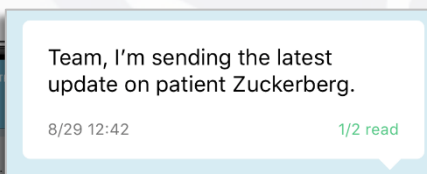

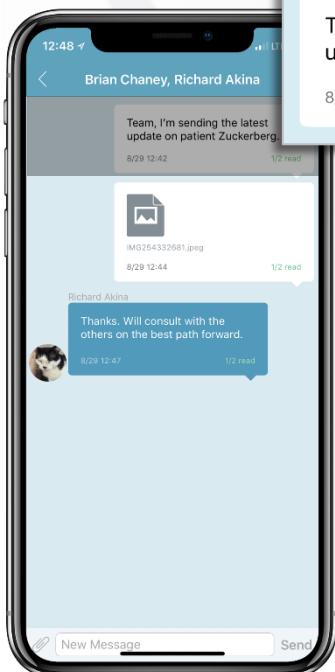

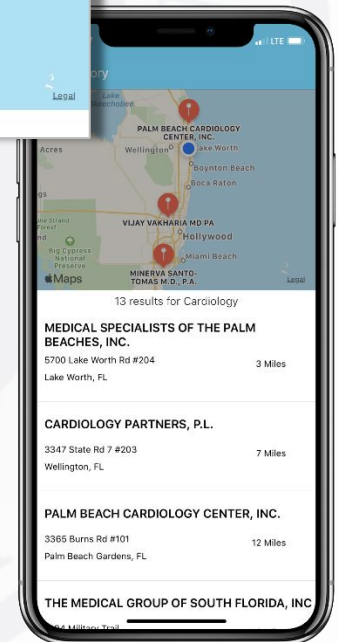

Receive real-time hospital alerts

Practices can receive real-time notifications when their Medicare patients are admitted to nearly any hospital in Florida. Catch your patients at the opportune time to reduce medical costs and prevent costly readmissions. Our network of Post-Acute facilities will also inform you through the app when one of your patients has entered their care.

Network with PBACO professionals

Get connected to other skilled medical professionals in the ACO. Search by specialty and location to find a reliable facility in your area for patient referrals. Addresses and contact details are readily available in the app. Referring in-network provides your patients with a high level of quality care and keeps expenses in check.

Securely exchange patient info

The SuperDocACO App is PBACO's method of choice for electronically sending and receiving sensitive patient information. Communicate directly with other physicians, assistants and PBACO staff using HIPAA-compliant secure messaging. Upload and download images and files with ease and create group chats to keep everyone in the loop.
